Deadline for manuscript submissions:

closed (29 February 2024)

Message from the Guest Editor

Dear Colleagues,

In the present day, imaging represents a key strategy contributing to the diagnosis and management of cardiac arrhythmias. It especially includes non-invasive imaging techniques such as echocardiography, cardiac computed tomography, and cardiac magnetic resonance, as well as invasive technologies such as electroanatomic mapping and intracardiac echocardiography. The integration of information derived from these different exams allows for an in-depth analysis of the disease and, as a result, enables one to choose the best patient management strategies. Furthermore, the online integration of several techniques (invasive and non-invasive) is now possible. We are seeking papers from cardiologists and radiologists who deal with cardiac imaging and contributions from cardiologists with expertise regarding cardiac arrhythmias.

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Biology) / CiteScore - Q2 (Paleontology)
