Analytical Chemistry in Astrobiology

Guest Editor:

Prof. Dr. Philippe Schmitt-Kopplin
1. Chair of Analytical Food Chemistry, Technical University of Munich, Maximus-von-ImhofForum 2, 85354 Freising, Germany
2. Research Unit Analytical BioGeoChemistry, Helmholtz Zentrum München, Ingolstaedter Landstraße 1, 85764 Neuherberg, Germany

Deadline for manuscript submissions:
closed (31 March 2019)

Message from the Guest Editor

The goal of this Special Issue is to focus on the technological advances that have enabled to further the systems approach and chemical understanding in the field of astrobiology. Papers describing works in all analytical sectors of separation sciences (chromatography, electrophoresis, etc), spectroscopy (over the whole spectral range for direct or remote chemical analysis, from optical to specific frequencies), and spectrometry (mass analysis, hyphenated techniques), as well as more comprehensive and integrative approaches, such as those observed in the modern field of omics, will be welcomed in this Special Issue. We welcome astrobiology-relevant topics based on chemical observations from the large- to the nanoscale, nanofluidics or miniaturization of chemical analyses, organic analysis of specific targets with isotopic or enantiomeric specificity of complex mixtures with chemical resolution, observation of biological systems (microbiomes of higher organisms) under space conditions and stresses. The chemistry of interest will involve the whole astrochemiome, from small volatiles, which represent the first steps in the synthesis of biology-relevant macromolecules, to biomolecules.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana
Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Biology*) / CiteScore - Q2 (*Paleontology*)
