Biodiversity and Ecology of Fungi in Terrestrial and Marine Ecosystems

Guest Editors:

Dr. Armin Mešić

Ruđer Bošković Institute, Bijenička cesta 54, HR-10000 Zagreb, Croatia

Dr. Ivana Kušan

Division for Marine and Environmental Research, Ruđer Bošković Institute, 10000 Zagreb, Croatia

Deadline for manuscript submissions:

closed (29 October 2021)

Message from the Guest Editors

Fungi are one of the most important organisms in the world and the sustainability of both terrestrial and marine ecosystems is strongly dependent on them. Biodiversity is being revealed today much faster due to the modern molecular methods, like metabarcoding, which brings us to the point where we can start understanding the real role of fungi and their life cycles in the natural environments. But, to put all this information into a context, we still lack basic taxonomic knowledge on most of the fungal groups. Therefore, basic mycological research should be still strongly encouraged in the 21st century. This special issue will focus on all these aspects, accepting both the original scientific articles and reviews with the topics on taxonomy, biodiversity, ecology, phylogeny and evolutionary biology of fungi, as well as various fields of applied mycology.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
