Message from the Guest Editors

We invite you to celebrate with us the achievements of women in science by contributing an original life science research article to this Special Issue of Life.

It is our goal to highlight and celebrate the achievements of women in science by cultivating an environment that is friendly to young women aspiring to have a career in the life sciences. While the purpose of our Special Issue is to promote and celebrate the achievements of women in science, we do so without imposing gender-specific restrictions and welcome submissions from all authors, irrespective of gender identity.
