Biomarkers, Molecular Mechanism, Microenvironments, and Therapeutics in Oral Cancer

Guest Editor:

Dr. Prakash Gangadaran

Department of Biomedical Science & Nuclear Medicine, School of Medicine, Kyungpook National University, Daegu 41944, Korea

Deadline for manuscript submissions:

closed (30 June 2022)

Message from the Guest Editor

Oral cancer appears initially as a small swelling or sore in the mouth. Oral cancer, which includes cancers of the floor of the mouth, tongue, lips, cheeks, sinuses, hard and soft palate, and throat (pharynx), can be fatal if not diagnosed and treated early. Despite significant progress in the diagnosis and treatment of cancers, oral cancer remains the biggest challenge of modern medicine. Identification of earlv biomarkers, understanding the molecular mechanism of tumor progression, factors involved in the microenvironment and therapeutics approaches for oral cancer are inevitable and require further research.

We cordially invite you to present your excellent oral cancer research discoveries in this Special Issue to the wider scientific and academic community.

In this Special Issue, entitled "Biomarkers, Molecular Mechanism, Microenvironments, and Therapeutics in Oral Cancer", we would like to present a collection of articles, such as reviews and systematic reviews, original papers, and clinical trials.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Biology) / CiteScore - Q2 (Paleontology)
