### Message from the Collection Editors

This Special Issue aims to collect high quality review papers in the Life sciences' research fields. We encourage researchers from various fields within the journal's scope to contribute review papers highlighting the latest developments in their research field, or to invite relevant experts and colleagues to do so. The topic of this Special Issue includes, but is not limited to:

origins of life, astrobiology, biology, protein, ecology, genetics, plant science, animal science, medicine, physiology and pathology.

Such review papers should provide syntheses of ideas and have the potential to challenge existing paradigms and create new frameworks that will advance our understanding of all aspect of Life.

Review manuscripts should comprise the front matter, literature review sections and the back matter. The template file can also be used to prepare the front and back matter of your review manuscript. It is not necessary to follow the remaining structure. Structured reviews and meta-analyses should use the same structure as research articles and ensure they conform to the [PRISMA](#) guidelines.
