

## Special Issue

# New Screening Methods for Diagnosis of Cardiovascular Diseases

### Message from the Guest Editors

Cardiovascular diseases have become the main cause of mortality in many countries, especially due to late diagnosis. Young, obese people are at risk of developing cardiovascular diseases. Therefore, there is an urgent need for highly reliable tools capable of diagnosing cardiovascular diseases, as well as to perform continuous monitoring of biomarkers in patients diagnosed with cardiovascular diseases. This Special Issue will comprise papers related to new biomarkers for diagnosis of cardiovascular diseases, as well as new methods and tools that will be used for the fast diagnosis of cardiovascular diseases.

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.
