Beyond Atherosclerosis: Between Unresolved Questions, Ongoing Studies, and Future Perspectives—2nd Edition

Message from the Guest Editors

Biomedical science has shown that atherosclerosis is the protagonist of cardiovascular events. Even if many researchers have focused their attention on physiopathological mechanisms that drive atherosclerosis, many aspects are still unknown. At the same time, physicians now have different therapeutic options compared to the past. This Special Issue aims to deepen the unresolved aspects regarding atherosclerosis and create a focus on current and new therapeutic strategies and physiopathological mechanisms, inspiring researchers and physicians around the world to conduct new studies and provide the best possible treatment for their patients.

Guest Editors

Dr. Damiano D'Ardes

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
