

## Special Issue

# Wildlife Shifts: Species, Space, and Survival

### Message from the Guest Editor

The Special Issue of *Life* is focused on knowledge surrounding general habitat shifts and the establishment of organisms' adaptation to different living media and the ecological and physical conditions of their habitats. We welcome investigations that focus on the present as well as manuscripts based on paleontological and paleoclimatic data. With data on extinction and threats as the focus of the Special Issue, contributions concerning the impact of urbanization on wildlife, natural and forced habitat shifts, predator–prey interactions, morphological adaptations to particular habitat conditions, shifts in diet, changes in behavior, ethological repertoires, animal intelligence and plasticity, and invasive species will be highly appreciated. Taxonomical studies addressing morphological adaptations and analyses concerning the anthropogenic role in ecological transitions, including evidence from long-term biodiversity monitoring and community-based ecological observations, will also be considered.

### Guest Editor

Prof. Dr. Nikolay D. Natchev

1. Department of Biology, Shumen University, 115 Universitetska Str., 9700 Shumen, Bulgaria

2. Unit for Integrative Zoology, Department of Evolutionary Biology, University of Vienna, Djerassiplatz 1, 1030 Vienna, Austria

### Deadline for manuscript submissions

closed (19 May 2026)

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
