

Special Issue

Gastrointestinal Health: Clinical Research and Therapeutic Innovations

Message from the Guest Editor

This Special Issue brings together a collection of original studies and reviews that underscore the dynamic landscape of gastroenterology. This project highlights pivotal advancements in diagnostic methodologies, therapeutic strategies and clinical practices designed to enhance gastrointestinal health. Featured research explores novel treatments for common gastrointestinal disorders, including irritable bowel syndrome, inflammatory bowel disease and gastroesophageal reflux disease. At the same time, conditions affecting the liver, such as fatty liver disease, liver cirrhosis and hepatocellular carcinoma, will also be addressed. The key focus areas include the gut microbiota's role in health and disease, investigating the therapeutic potential of probiotics, prebiotics and dietary interventions. Multidisciplinary perspectives will be emphasized, integrating insights from gastroenterologists, hepatologist, nutritionists, microbiologist and clinical researchers.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
