

Special Issue

Eye Diseases: Diagnosis and Treatment, 2nd Edition

Message from the Guest Editors

Eye health is essential in day-to-day life. Ocular retinal pathologies such as glaucoma, age-related macular degeneration, and diabetic retinopathy are the foremost causes of irreversible blindness in developed countries. At the same time, we can find other common ocular diseases, such as keratoconus, dry eye, cataract, or microbial keratitis, which do not cause blindness but substantially impact patients' quality of life. The management and treatment of these pathologies have become a worldwide public health burden. The main goal of the present Special Issue is to highlight both innovative therapeutic approaches and the search for new techniques for the diagnosis of ocular diseases. These findings will provide an overview of the impact of each ocular pathology, not only in humans but also in the eye care system, and could include potential strategies in future therapeutics. We expect to receive both original research and review articles with a focus on (a) new developments in ocular disease diagnosis techniques and (b) new approaches in ocular diseases treatments.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
