

## Special Issue

# Comprehensive Treatment and Precision Medicine Strategies for Heart Disease

### Message from the Guest Editor

This Special Issue, “Comprehensive Treatment and Precision Medicine Strategies for Heart Disease,” aims to bring together original research, systematic reviews, and expert perspectives on the evolving landscape of cardiovascular science. With the growing integration of artificial intelligence, advanced imaging, molecular diagnostics, and tailored approaches, heart disease management is entering a new era of precision medicine. We welcome contributions that explore strategies across prevention and diagnosis of complex cardiac conditions. Topics of interest include novel risk prediction models, individualized treatment pathways, AI-driven decision support, and translational research that bridges bench discoveries with bedside applications. By highlighting state-of-the-art therapies and forward-looking innovations, this Special Issue will provide a platform for researchers to share insights that can shape future standards in cardiovascular medicine.

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
