Special Issue

Pathology, Diagnosis, and Treatments of Airway Diseases

Message from the Guest Editors

Airway diseases encompass a heterogeneous group of disorders, including asthma, chronic obstructive pulmonary disease (COPD), cystic fibrosis, and respiratory infections, which are considered among the leading causes of morbidity and mortality worldwide. The diagnosis and management of airway diseases represent a significant challenge for clinicians due to the incomplete understanding of their pathogenesis and the variability in patients' response to first-line therapies. In recent decades, cutting-edge technologies have deepened our knowledge of the pathophysiological and molecular mechanisms underlying these conditions. paving the way for novel targeted approaches. Unravelling the genetic roots, molecular pathways, and environmental factors guiding airway disease development and prognosis is crucial to improving patient outcomes. This Special Issue aims to provide an up-to-date, comprehensive overview of the pathogenesis of airway diseases, while exploring emerging diagnostic and therapeutic approaches that may shape the future of respiratory healthcare.

Guest Editors

Dr. Laura Bergantini

Respiratory Diseases Unit, Department of Medical Sciences, Surgery and Neurosciences, Siena University Hospital, Siena, Italy

Dr. Tommaso Pianigiani

Respiratory Diseases and Lung Transplantation Unit, Department of Medical and Surgical Sciences & Neurosciences, University of Siena, Siena, Italy

Deadline for manuscript submissions

1 October 2026

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
