

## Special Issue

# Advances in Fetal Medicine: From Prenatal Diagnosis to Fetal and Neonatal Therapy

### Message from the Guest Editor

We are pleased to invite submissions to the upcoming Special Issue of Life, “Advances in Fetal Medicine: From Prenatal Diagnosis to Fetal and Neonatal Therapy.” This Special Issue aims to showcase cutting-edge research and clinical innovations that are transforming fetal and neonatal care. We welcome original research articles, comprehensive reviews that address the full spectrum of fetal medicine—from novel diagnostic technologies and screening strategies to therapeutic interventions and long-term outcomes. Contributors are encouraged to submit manuscripts covering topics such as non-invasive prenatal testing, fetal imaging, fetal surgery, genetic and genomic advances, and innovations in neonatal intensive care. Our goal is to create a multidisciplinary platform for clinicians, researchers, and healthcare professionals to share insights that improve perinatal health and outcomes. This Special Issue offers an opportunity to highlight your work in a high-visibility forum and reach a global audience of scientists and practitioners dedicated to maternal-fetal and neonatal health. We look forward to receiving your valuable contributions.

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.
