

## Special Issue

# Therapeutic Innovations from Plants and Their Bioactive Extracts

### Message from the Guest Editors

Plants and their extracts are rich sources of structurally diverse and biologically active phytochemicals, including polyphenols, anthocyanins, and other natural compounds. These constituents possess a wide range of biomedical activities, which have a wealth of therapeutic promise and hold enormous, untapped potential.

This Special Issue invites high-quality contributions focused on the discovery, characterization, and biomedical application of bioactive compounds from plants. We especially encourage submissions that explore therapeutic effects in experimental and clinical models, highlight novel mechanisms of action, or present innovative techniques for the preparation and standardization of herbal extracts.

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
