

Special Issue

Conservative Management of Chronic Disease—2nd Edition

Message from the Guest Editor

Chronic conditions are representative of various health-related states of the human body, such as syndromes, physical impairments, disabilities, and diseases.

Individuals across all age groups, regions, and countries are affected by chronic diseases. Conservative management is a type of medical treatment defined by the avoidance of invasive measures such as surgery, usually with the aim of preserving function. The aims of conservative management are as follows:

- Preventing the symptoms of disease;
- Treating the symptoms of disease;
- Protecting and maintaining functions.

For this Special Issue, “Conservative Management of Chronic Disease”, we invite submissions from researchers on a wide spectrum of topics related to improving and enhancing chronic disease management.

Guest Editor

Dr. Jonathan Sinclair

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
