Advances in Endoscopic, Surgical, and Interventional Radiological Management of Gastrointestinal Diseases

Message from the Guest Editor

Gastrointestinal diseases encompass a wide spectrum of inflammatory and neoplastic conditions. Recently, significant progress in the diagnostic and therapeutic field has been noted. A higher number of patients can now be treated using less invasive endoscopic and radiologic approaches. On the other hand, some patients require advanced surgery, including open, laparoscopic, and robotic approaches. In recent years, complex surgical procedures, including esophageal, gastric, bowel, pancreatic, and hepatic resections for gastrointestinal neoplasms, have been evaluated. In addition, techniques for interventional radiological procedures. Due to advances in multimodal oncological management, including chemotherapy, radiotherapy, immunotherapy, and complex multivisceral surgery (including venous and arterial concomitant resections), radical treatment leading to better prognosis and longer survival may be possible for an increasing number of patients.

Surgeons, gastroenterologists, oncologists, and radiologists, as well as all the physicians involved in the management of gastrointestinal diseases, are invited to contribute to this Special Issue.

Guest Editor

Dr. Beata Jabłońska

Department of Digestive Tract Surgery, Medical University of Silesia, Katowice, Poland

Deadline for manuscript submissions

6 February 2026

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
