## **Special Issue**

# Extracellular Vesicles: Biology, Mechanisms, and Therapies for Cerebrovascular Disorders

## Message from the Guest Editor

The scope of this special issue is to bring together recent advances and challenges in EV biology, engineering, and translational applications, with a particular emphasis on cerebrovascular diseases. We invite original research articles, reviews, and perspectives that advance our understanding of mechanistic, diagnostic, and therapeutic dimensions of EVs in the context of cerebrovascular disorders, including stroke, vascular cognitive impairment and dementia, aneurysms, arteriovenous malformation, cerebral small vessel diseases, cerebral amyloid angiopathy, etc. Submissions covering cross-disciplinary themes, such as biomaterials, nanomedicine, or computational analysis, are also encouraged.

## **Guest Editor**

Dr. Jinju Wang

Department of Biomedical Sciences, Joan C Edwards School of Medicine, Marshall University, Huntington, WV 25755, USA

#### Deadline for manuscript submissions

30 June 2026

## **About the Journal**

## Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

#### **Editor-in-Chief**

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

#### **Author Benefits**

## **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

### **Journal Rank:**

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
