

Special Issue

Obstetric and Gynecological Diseases: Current Status and Challenges

Message from the Guest Editor

This Special Issue is dedicated to exploring the intricate challenges within obstetrics and gynecology, emphasizing two vital domains: obstetrics, encompassing pregnancy and labor-related pathologies, and gynecology, focusing on minimally invasive surgeries, gynecological pathologies like endometriosis, and malignancies. In obstetrics, our aim is to delve into critical issues such as eclampsia and other pathologies that arise during pregnancy and labor. We seek to illuminate the complexities, understand underlying mechanisms, and propose innovative approaches for the management and prevention of these conditions. By addressing these challenges, we aim to enhance maternal health and improve pregnancy outcomes globally. Within gynecology, our focus spans across minimally invasive surgical techniques like laparoscopic and robot-assisted procedures, revolutionizing gynecological interventions. Additionally, our scope includes investigating prevalent conditions such as endometriosis and gynecological malignancies. We strive to advance knowledge, treatment modalities, and prognostic strategies for these conditions, aiming to optimize patient care and outcomes.

Guest Editor

Dr. Christos R. Iavazzo

Gynaecological Oncology Department, Metaxa Cancer Hospital, 18537 Piraeus, Greece

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
