

## Special Issue

# Gynecology Update: Modern Diagnostic Approaches and Innovative Therapies

### Message from the Guest Editors

We invite you to contribute to Special Issue “Gynecology Update: Modern Diagnostic Approaches and Innovative Therapies”, which aims to explore recent advancements that bridge translational research and clinical therapies in gynecology. This Special Issue will focus on studies that have led to improvements in diagnostic accuracy and therapeutic efficacy for both benign and malignant gynecologic diseases. Articles from molecular diagnostics to targeted therapies and fertility-preserving techniques that show how innovation is reshaping diagnostic and therapeutic approaches are welcome. We particularly welcome research focused on cervical, endometrial, ovarian, and vulvar cancers, as well as prevalent benign conditions such as fibroids, endometriosis, and polycystic ovary syndrome (PCOS). Our goal is to collect high-quality original research, research protocols, and systematic reviews that contribute meaningfully to the advancement of gynecologic care. Case reports are also welcome, especially those that highlight personalized therapeutic approaches or innovative solutions in the management of rare or complex cases. We look forward to your valuable contributions to this Special Issue.

### Guest Editors

Prof. Dr. Szabolcs Várbiro

Dr. Keszthelyi Márton

Dr. Richárd Tóth

Dr. Balázs Lintner

### Deadline for manuscript submissions

26 February 2026

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
