

Special Issue

Understanding Interstitial Cells

Message from the Guest Editors

In this issue, we hope to focus on the spatial structure, plasticity change and molecular biological levels, grouping and real influence of interstitial cells in in vivo and in vitro studies, including healthy and diseased tissues and organs. Novel insights into morphological structure, classification, function, and physiology of interstitial cells and connected tissues are invited. Immunologic and regenerative effects on tissue and organ function involved in interstitial cells will be of special interest. Integrative analyses of gene and protein, regulatory mechanisms through different omics research on the origin, and differentiation of interstitial cells, including the use of newly described and advanced ideas, are especially invited. Outstanding experts interested in this thematic issue are very welcome to send original manuscripts and reviews dealing with any of the cells mentioned above.

Guest Editors

Dr. Ping Yang

MOE Joint International Research Laboratory of Animal Health and Food Safety, College of Veterinary Medicine, Nanjing Agricultural University, Nanjing 210095, China

Dr. Tengfei Liu

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
