Special Issue

Applications of Ultrasound in Neonatal Intensive Care Unit

Message from the Guest Editors

In recent years, the use of ultrasound techniques in neonatal intensive care has become widespread. In particular, ultrasound now constitutes an important support for the neonatologist in the diagnosis and management of the pathological patient. This is true in several areas: in respiratory pathology with chest and diaphragmatic function ultrasonography; in the hemodynamic management of the critic neonate with echocardiography; and in neurological risk assessment with echoencephalography. Additionally, ultrasound is used in precision medicine, with the described spread of ultrasound-guided procedures (thoracentesis, pericardiocentesis, paracentesis, rachicentesis, ultrasound-guided central venous catheter placement, endotracheal tube position control, and nasogastric tube). The trend toward developing personalized and precision medicine makes the use of ultrasound techniques into a very interesting research topic. With this in mind, we believe that a Special Issue aimed at collecting the latest news in this regard would be very interesting for neonatologists.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
