

Special Issue

Advanced Strategies in Fracture Treatments

Message from the Guest Editors

Fracture management is a critical aspect of orthopedic care, and the "Advanced Strategies in Fracture Treatments" Special Issue aims to bring together cutting-edge research and innovative approaches to address contemporary challenges in this field. This Special Issue provides a platform for researchers, clinicians, and experts to share insights into novel treatment modalities, technological advancements, and evidence-based practices that can enhance patient outcomes. The rationale behind this Special Issue lies in the evolving landscape of fracture treatments, where new strategies are continuously emerging to optimize patient care. We invite contributions that explore a wide range of topics, including biomechanics, surgical techniques, implant developments, and advanced treatment protocols. Authors are encouraged to delve into the complexities of fracture classifications, individualized treatment plans, and the role of emerging technologies in improving diagnostic accuracy and therapeutic interventions.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
