

Special Issue

Innovation in Rheumatology: Advances in Diagnostics, Therapeutics and AI Applications

Message from the Guest Editor

This edition will explore advancements driven by technologies such as artificial intelligence, new diagnostics and therapeutics, personalised medicine, wearable technology, nanotechnology, and gene therapy, aimed to improve patient outcomes and addressing unmet needs.

This Special Issue will focus on innovation in a range of autoimmune disorders, such as rheumatoid arthritis, connective tissue diseases, and vasculitides. We invite contributions showcasing cutting-edge research methodologies, diagnostic tools, and therapeutic interventions designed to enhance patient outcomes. Insights into novel biomarkers, personalised medicine approaches, and emerging treatments will be crucial in this discussion. We welcome articles based on original research, reviews, and selective case reports that are unique, novel, and have the potential to change clinical practice. We encourage researchers, clinicians, and experts in the field to share their insights, research findings, and perspectives in this Special Issue as we strive for a better understanding of autoimmune diseases in rheumatology and work towards improved therapies and outcomes for patients.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
