

## Special Issue

# Recent Advances in Lymphomas

### Message from the Guest Editor

Lymphomas represent transformations within the lymphoid system. Various subtypes with diverse biology, morphology, clinical presentation, and prognosis can be distinguished. Progress in the early detection of lymphoma is giving patients more treatment options than in the past. New drugs, targeted therapies, and gene therapies have the potential to revolutionize the way we treat malignant lymphomas. This Special Issue will focus on recent developments in our understanding of lymphoma and possible paths towards reducing the burden of the disease.

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
