From Gametogenesis to Delivery: Advances in Early Life Developmental Environment

Message from the Guest Editor

There is now convincing evidence that many adulthood disorders are related to early-life alterations, particularly those that take place during the early stages of gametogenesis. In fact, a wide variety of male reproductive problems have also been connected to early-life events that are vulnerable to a wide variety of interactions between the genome and the developmental environment during spermatogenesis. This Special Issue aims to present the most recent studies on the prenatal stage of development, including gametogenesis and pregnancy, with an emphasis on the developmental impact of the early-life environment on long-term health in adulthood. This Special Issue also takes into account cellular and histopathological characteristics, the biological effects of toxins and natural products on gametogenesis and pregnancy, and potential links with disorders.

Guest Editor

Prof. Dr. Abdel Halim Harrath

Lab of Fetal programming of diseases, Department of Zoology, College of Sciences, King Saud University, Riyadh 11451, Saudi Arabia

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
