# Laparoscopy and Treatment: An All-Encompassing Solution for Surgeons

## Message from the Guest Editors

In an era where patient-reported outcomes have become more important, one of the tools that every surgeon should have in their bag is diagnostic laparoscopy. This versatile instrument can serve as a diagnostic confirmation and definitive treatment. Through a couple of trocars placed into the abdomen, a surgeon can diagnose a variety of surgical ailments, such as bowel infarction, the site of obstruction in bowel obstruction, occult hernias, and, last but not least. trauma. In addition, the oncological field is another place where it shines; intraperitoneal tumors, peritoneal carcinomatosis, and superficial liver metastases that were not identified upon imaging. Staging laparoscopy is recommended for pancreatic and gastric cancers, thus providing a potential indication for radical surgery. Laparoscopy is not only diagnostic, but after identifying the nature of the surgical disease one can perform various laparoscopic surgeries with net advantages when compared to the open approach.

## **About the Journal**

## Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

#### **Editor-in-Chief**

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

#### **Author Benefits**

### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

### **Journal Rank:**

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
