

Special Issue

Coagulation and Its Disorders: Physiology and Pathological Mechanisms

Message from the Guest Editor

This Special Issue aims to collect the most recent knowledge in the field, accepting research articles and reviews related to physiology and pathological mechanisms of coagulation disorders. Topics include, but are not limited to, the following:

- Original research articles and reviews on the physiology of coagulation
- Studies on genetic and functional defects of coagulation factors
- Infectious and inflammatory diseases impact on coagulation and molecular mechanisms
- Examination of organ failure-related coagulation disorders
- Research on the pathogenesis of severe coagulation disorders such as DIC

Guest Editor

Dr. Anna Lisa Montemari

Clinical Laboratory Unit, Bambino Gesù Children's Hospital, IRCCS, Rome, Italy

Deadline for manuscript submissions

closed (30 November 2025)

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
