Food Microbiological Contamination

Message from the Guest Editors

Food microbiological contamination represents a very current global issue, since it poses a threat to consumer health and has relevant negative economic implications. Despite improved hygiene management systems and increased regulation, pathogenic bacteria continue to contaminate food, causing sporadic foodborne outbreaks around the world. Microbial contamination can occur at any step of the food chain and the implementation of effective food safety strategies is needed to control and eliminate potential microbial hazards. This Special Issue will collect original research papers and review on different aspects of food microbiology and safety, including innovative natural food preservation strategies in order to reduce the microbiological risk.

Guest Editors

Dr. Sara Primavilla

Istituto Zooprofilattico Sperimentale dell'Umbria e delle Marche "T. Rosati", Perugia, Italy

Dr. Rossana Roila

Department of Veterinary Medicine, University of Perugia, Via San Costanzo 4, 06126 Perugia, Italy

Deadline for manuscript submissions

closed (29 November 2024)

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
