

Special Issue

Natural Additives to Promote Organic and Sustainable Poultry Production

Message from the Guest Editor

Over the years, the need for organic niche markets have seen an exponential growth by health-conscious consumers around the world, but the supply of organically produced poultry products does not always meet the demand in many regions. Moreover, the cost of producing such organic products is currently a major problem due to the ever-rising feed costs. Thus, this Special Issue is designed to publish high-quality and original research on the use of natural additives or nutraceuticals with growth-stimulating, health-promoting, and antimicrobial and antioxidant bioactivities that can deliver organic and sustainable poultry production systems. Original research articles, review papers, short communications and research reports are most welcomed.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
