

Special Issue

Advances in Tissue Injury and Regeneration Repair: 2nd Edition

Message from the Guest Editor

Dear colleagues, This Special Issue on advances in tissue injury and regeneration/repair will collect research articles or reviews concerning the injury mechanisms of important human tissues and organs (for example, the heart, liver, lung, etc.) as well as the functional remodeling process after injury, especially focusing on the immune microenvironment formed by immune cells, such as macrophages, innate lymphoid cells, T cells, and so on. Of course, work on other immune cells or molecule-mediated damage and repair is also encouraged. We invite suggestions for manuscripts to be included in this Special Issue. Please contact the editor before preparing a manuscript for a prearrangement of the topic.

Guest Editor

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
