

Special Issue

Skin, Wound, Plastic Surgery and Hand Surgery

Message from the Guest Editors

Wound care and closure require deep understanding of anatomy, skin and soft tissue physiology and pathology and of the tightly coordinated regenerative responses that are involved in the healing process and their pathologies, as well as recognizing the importance of nutritional support, infection control, the mechanical forces in the wound environment, the correct implementation of a variety of surgical techniques, of appropriate nursing and wound care and of rehabilitative measures. All are important elements, making the optimization of wound healing and scar control achievable only through an interdisciplinary approach. In this Special Issue in "*Life*" we aim to encourage interdisciplinary sharing of recent insights and progress in the abovementioned fields of expertise in hope for cross-fertilization of knowledge and ideas and in an attempt to humbly contribute to the evolution of a multidisciplinary networking and interdisciplinary collaboration, which are pivotal for expanding our understanding of the different aspects of skin and soft tissue healing and in the continual strive for a functionally and esthetically pleasing outcome.

Guest Editors

Dr. Yuval Krieger

Hand Surgery Unit Director, Plastic and Reconstructive Surgery Department, Soroka University Medical Center and the Faculty of Health Sciences, Ben Gurion University of the Negev Beer Sheba 84105, Israel

Dr. Yaron Shoham

1. Burn Unit Director, Plastic and Reconstructive Surgery Department, Soroka University Medical Center, Beersheba, Israel

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
