

## Special Issue

# Androgen Receptor and AR-Related Signaling in Health and Disease

### Message from the Guest Editors

AR signaling plays a crucial role in physiological processes like muscle growth, maintenance of the prostate tissue, spermatogenesis, and development of the male phenotype, as well as in female reproductive processes like ovarian folliculogenesis. On the other hand, dysregulated AR signaling is strongly correlated to tumorigenesis and progression of hormone-sensitive tumors like prostate carcinoma and breast cancer and may also play a pivotal role in other tumor entities.

Taken together, although there are well-established connections between the mechanisms of AR signaling, some target genes regulated by the AR, and physiological or pathophysiological processes influenced by these pathways, many elements in the complex interplay between the AR-regulated transcriptome, signaling pathways altered by AR dysregulation, and the resulting changes in cellular phenotype as well as putative pathophysiological consequences remain to be elucidated.

### Guest Editors

Dr. Thomas Greither

Center for Reproductive Medicine and Andrology, University Hospital, Martin Luther University Halle-Wittenberg, 06108 Halle (Saale), Germany

Dr. Sven Wach

Department of Urology and Pediatric Urology, University Hospital, FAU Erlangen-Nürnberg, Maximilianspl. 2, 91054 Erlangen, Germany

### Deadline for manuscript submissions

closed (20 July 2022)

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

### Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona  
Institute of Science and Technology, 08028 Barcelona, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
