# Ecological and Evolutionary Dynamics of Transboundary Animal Infectious Diseases

# Message from the Guest Editors

Safe, effective, sustainable animal production is vital to global food security, local economies, and longestablished cultural practices. Animal diseases reduce production, often severely, with many having the potential to become human diseases. However, new diseases emerge and reemerge at alarming rates and expand by crossing boundaries between species, ecosystems, and geographic regions. Whereas the science behind pathogen identification, prevention, management, and response has benefited from centuries of progress, we are just beginning to understand the complex processes and mechanisms that determine how and when infectious diseases cross boundaries. The scope of this problem encompasses many disciplines, including microbiology, epidemiology, veterinary science, ecology, genetics, and evolution. For this Special Issue, we invite contributions that shed light on transboundary infectious diseases as ecological and evolutionary phenomena. Our aim is to bring together insights and approaches from multiple disciplines in the hope that synthesis, collaboration, and deeper understanding will follow.

### **Guest Editors**

Prof. Dr. Joseph Neigel

Department of Biology, University of Louisiana at Lafayette, PO Box 42451, Lafayette, LA 70504, USA

Dr. Timothy Sullivan

4084 NE Jefferson Dr., Hamilton, MO 64644, USA

### Deadline for manuscript submissions

closed (20 July 2022)

# **About the Journal**

# Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

#### **Editor-in-Chief**

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

#### **Author Benefits**

# **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

### **Journal Rank:**

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
