Update on Clinical Pharmacology

Message from the Guest Editor

Clinical pharmacology is a branch of biomedical science that studies the clinical use and effects of drugs on their targets in living systems, along with their discovery, and the biological functions related to these chemicals. This Special Issue, "Update on Clinical Pharmacology", will feature in *Life*, an international, peer-reviewed, and open access journal. It aims to cover various aspects of pharmacological applications, such as drug efficacy, drug safety (adverse drug reactions), new drug development, clinical trials, therapeutic drug monitoring, pharmacodynamics, pharmacokinetics, pharmacoeconomics, pharmacovigilance and clinical toxicology. Original research, methodology papers, short reports, reviews and commentaries in all areas of drug experience in humans will be considered.

Guest Editor

Prof. Dr. Ju-Seop Kang

Department of Pharmacology & Clinical Pharmacology Laboratory,

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
