Emerging Biomarkers: Recent Findings and Application in Pathological Condition Detection—2nd Edition

Message from the Guest Editor

In recent years, the search for disease biomarkers has been gaining increasing attention of the scientific community, since new strategies are needed for early and accurate diagnosis, and new therapeutic approaches, as well as to identify or modify the course of several diseases. The surge of interest in biomarker research is leading to the development of new predictive, diagnostic and prognostic products in medical practice, and biomarkers are also playing an increasingly important role in the discovery and development of new drugs.

In this Special Issue, advances will be presented in the identification of reliable, sensitive, specific, non-invasive, inexpensive and easily detectable biomarkers that could provide a dynamic and powerful approach, useful in understanding the broad spectrum of the various pathologies.

All contributions from researchers dealing with the identification of biomarkers, the elucidation of their role and the formalization of their application in modern medicine are welcome.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
