Research Advance in Neurovascular Diseases

Message from the Guest Editor

Vascular neurology, vascular neurosurgery, and interventional neuroradiology are independent fields with dedicated training programs. Neuroimaging, and, in particular, “neurovascular imaging”, are unifying factors at the intersection of these three medical specialties. With this Special Issue, we aim to thoroughly cover the imaging techniques, potentialities, and present and future applications as applied to the vascular diseases of the central nervous system from an imaging point of view. In recent years, several advances in imaging technology have dramatically revolutionized the neurovascular field. We hope that this Special Issue will be a timely addition to the growing body of literature on this topic. Our aim is to cover all aspects of neurovascular disease in a comprehensive way.

Guest Editor

Dr. Marcin Sawicki

Department of Diagnostic Imaging and Interventional Radiology,
Pomeranian Medical University, Szczecin, Poland

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
