Prenatal Diagnosis and Fetal Therapy

Message from the Guest Editor

Prenatal Diagnosis and Fetal Therapy employ a variety of techniques to determine the health and condition of an unborn fetus. Fetal therapy is a highly specialized field of medicine requiring a careful evaluation of the fetal condition in addition to a precise anatomical definition of malformations or genetic disorders. The success of fetal therapy requires knowledge of the relevant fetal pathophysiology in each case. Genetic correction in some rare diseases in humans during pregnancy is no longer a future concept. The goal of the early detection of a pathologic fetal state and fetal therapy is to favorably alter long-term outcomes. In this Special Issue of *Life*, we invite researchers from all over the world to share advances in our understanding of genetic and molecular pathways in the pathogenesis of fetal disorders. We invite original works and review articles dealing with new techniques, signaling pathways, novel targets for alternative antibacterial therapy of PPROM, minimally invasive fetal therapy, the presentation of TRIALS in prenatal medicine, and models for predicting prognosis.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
