Special Issue

The Dual Role of Fungi as Pathogens and Commensals

Message from the Guest Editor

In this Special Issue of *Life*, we invite researchers from all over the world to share with us advances in our understanding of ecological, cellular, and molecular mechanisms used by fungi to adapt, colonize, and infect mammal hosts. This includes original work and review articles dealing with host adaptation, evolution, virulence factors, antifungal resistance, and also those that include high-throughput technologies to study host–fungal interactions.

Guest Editor

Dr. Joana Rolo

CICS-UBI Centro de Investigação em Ciências da Saúde, Universidade da Beira Interior, 6200-506 Covilhã, Portugal

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana
Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
