

## Special Issue

# Advances in Knee Biomechanics

### Message from the Guest Editor

Knee biomechanical studies have produced insight into how the joint functions, activities that lead to injury, treatment options, rehabilitation strategies, etc., but these studies have likely only revealed a small fraction of the knowledge to be gained. We need more in-depth and comprehensive knee biomechanical studies to understand which characteristics are critical to restore during repair and track during recovery to have a significant, positive clinical impact. We have seen significant advancements in computational and experimental capabilities that have expanded the field of knee biomechanics. The advanced techniques are necessary for the translation of benchtop research and the creation and evaluation of novel treatments to significantly advance human health. The aim of this Special Issue is to examine the state-of-the-art techniques used for the study of knee biomechanics. We look forward to submissions across the spectrum from in vitro and in vivo, to computational studies, as well as studies that utilize animal and human models.

### Guest Editor

Dr. Jason Shearn

The Noyes Orthopaedic Biomechanics and Tissue Engineering Laboratory, University of Cincinnati, Cincinnati, OH, USA

### Deadline for manuscript submissions

30 September 2025

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

### Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona  
Institute of Science and Technology, 08028 Barcelona, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
