

Special Issue

Advances in G Protein-Coupled Receptors Biophysical and Medicinal Chemistry

Message from the Guest Editor

This Special Issue aims at gathering original contributions describing the interaction of GPCRs with biologically relevant molecules and drugs. Research articles using both computational and experimental approaches are particularly welcome. Topics include, but are not limited to, the following:

- GPCRs
- ligand-receptor interactions
- allosteric modulation
- structure-based drug design
- computer-aided drug design
- molecular docking
- molecular dynamics simulations

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief
