

Special Issue

Gender-Specific Medicine and Pharmacology

Message from the Guest Editor

This Special Issue arises from the need for a gendered approach, both in the clinical setting and in therapeutic regimens, sharing results from clinical and preclinical studies. Original research articles, reviews, and short reports on various aspects of gender-specific medicine (cardiology, pneumology, endocrinology, oncology, dermatology, infectious disease, geriatrics and aging, gastroenterology, and neurology) and pharmacology (clinical and preclinical studies) are welcome, in order to create interdisciplinary consensus from a gender perspective.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.
