

Special Issue

Etiology, Prediction and Prognosis of Ischemic Stroke

Message from the Guest Editors

Ischemic stroke is a significant global health challenge, prompting the need for comprehensive exploration. This Special Issue endeavors to collate pioneering research on the etiology, prediction, and prognosis of ischemic stroke. We welcome submissions of papers that underscore the genetic, lifestyle, and environmental factors contributing to ischemic stroke, and highlight the innovative biomarkers and imaging methodologies for early detection and better prognosis. Additionally, we encourage articles addressing the methodological advancements, particularly in the context of cerebrovascular diseases. With the aim of promoting team science and fostering collaboration, this Special Issue invites researchers and experts from all relevant fields to enrich our comprehension of ischemic stroke while advancing prevention and treatment strategies through cutting-edge methodologies and multimodal data.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
