

## Special Issue

# Heat Shock Proteins in Cancer Treatment

### Message from the Guest Editor

Cancer is one of the leading causes of deaths worldwide with around 10 million deaths each year. Due to the growth of populations and their aging, the burden of cancer is expected to grow, in both westernized societies where it is already dominant. Heat shock proteins (HSPs) have been linked to negative outcomes in many cancers. Tumors are submitted to the stress of their own modified biology and the tumor microenvironment. Anticancer treatments represent an additional level of stress for cancer cells and HSPs help tumors resist these stresses. The Special Issue focuses on the importance of HSPs in the context of treating cancer. The scope of the Special Issue covers in vitro, in vivo as well as clinical studies, and aims at reporting the latest findings in the following areas: The exploration of pathways through which HSPs confer resistance to anticancer therapies. The identification of anticancer therapies whose effectiveness is unaffected by HSPs. The prognosis value of HSP expression in specific cancer types and anticancer treatments. The targeting of HSPs in order to ameliorate the effectiveness of anticancer therapies.

### Guest Editor

Dr. Sebastien Causse

INSERM U1231 'Lipides Nutrition Cancer', University of Burgundy, 21078 Dijon, France

### Deadline for manuscript submissions

closed (22 October 2022)

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

### Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona  
Institute of Science and Technology, 08028 Barcelona, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
