

Special Issue

Molecular Pathways in Hematologic Neoplasm

Message from the Guest Editor

In this Special Issue of *Life*, we invite researchers from all over the world to share advances in our understanding of molecular pathways in the pathogenesis and evolution of leukemias and lymphomas. We invite original work and review articles, dealing with new molecular techniques, signaling pathways, mechanisms of disease evolution, targetable molecular pathways, minimal residual disease detection, and models for predicting prognosis.

Guest Editor

Dr. Katalin Kelemen

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
