

Special Issue

New Insights Into Artificial Intelligence in Medical Imaging

Message from the Guest Editors

AI has revolutionized medical imaging by enhancing diagnostic accuracy, improving image analysis, and enabling personalized patient care.

The Special Issue will cover a wide range of topics, including but not limited to:

AI-based algorithms for disease detection, classification, and prognosis using medical images. Deep learning techniques for image segmentation, registration, and reconstruction.

AI-driven radiomics and radiogenomics for precision medicine and personalized treatment.

AI-based image-guided interventions, surgical planning, and navigation systems.

Development and validation of AI-assisted decision support systems for radiologists and clinicians.

We invite researchers and practitioners to contribute their valuable insights and help shape the future of AI in medical imaging by submitting their original contributions to this Special Issue of "Life." Together, we can harness the potential of AI to transform medical imaging practices, ultimately leading to improved patient outcomes and enhanced healthcare delivery.

Guest Editors

Dr. Luigi La Via

Dr. Antonino Maniaci

Dr. Caterina Gagliano

Dr. Salvatore Lavalle

Deadline for manuscript submissions

22 August 2025

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
