Special Issue

Recent Advances and Applications of Image-Guided Surgery

Message from the Guest Editors

During the last decade, image-guided surgery has been studied and implemented in a multidisciplinary setting. Several techniques in a multitude of disciplines were developed to aid surgeons to operate more accurately. faster, and with less collateral damage. This Special Issue focuses on the recent advances and novel applications of image-guided surgery. Original research and reviews on near-infrared fluorescence imaging, spectral imaging, (opto) acoustic imaging, tomography, and multimodal imaging, among other techniques focusing on image-guided surgery, qualify to be included in this Special Issue. Both preclinical and clinical studies can be submitted. This Special Issue is now open for submissions. Prospective authors should first send a short abstract or tentative title to the editorial office. If the editors deem the topic to be appropriate for inclusion in the Special Issue, the author will be encouraged to submit a full manuscript.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
