

# Special Issue

## Internet Addiction

### Message from the Guest Editors

The aim of our Special Topic is to focus on the complex background of internet addiction (for example, prevalence, demographic data, burnout, depression, sleep disturbance and quality of life, etc.) in different populations (for example adolescents, eSport users, adults, etc.), including fMRI studies. Original research, meta-analysis, and review articles related to this Special Topic are welcome, from preclinical research to multidisciplinary clinical management. Potential themes relevant to this Research Topic may include, but are not limited to, the following:

- Prevalence of internet addiction
- Risk factors of internet addiction
- Burnout and internet addiction
- Brain networks in internet addiction
- Internet addiction and quality of life
- Mental and physical consequences of internet addiction
- Co-incidence of internet and other addictions
- Therapy of internet addiction

---

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.
