

## Special Issue

# Migraine Neuroscience: From Bench to Bedside

### Message from the Guest Editors

The most frequent neurological disorder is headache, and promising new treatment strategies are emerging, especially for migraine. Migraine is a highly disabling primary headache that affects more than 1 billion people worldwide. Migraine is characterized by recurrent episodes of severe unilateral throbbing headache, lasting 4–72 hours, associated with nausea/vomiting and with sensitivity to light, sound and head movement (migraine without aura). About one third of migraineurs experience fully reversible neurological symptoms (visual, sensitive) that precede or accompany the headache (migraine with aura). The neuropeptide Calcitonin Gene-Related Peptide (CGRP) plays a key role in migraine pathophysiology. New therapeutically active agents specifically targeting CGRP or its receptor were developed for migraine treatment. In this Special Issue, we will describe the most recent progress in diagnosis, red and green flags and treatment strategies.

### Guest Editors

Dr. Adina Maria Roceanu

Neurology Department, University Emergency Hospital Bucharest, Bucharest, Romania

Prof. Dr. Rigmor Højland Jensen

Danish Headache Center, Department of Neurology, Rigshospitalet-Glostrup, University of Copenhagen, 2600 Glostrup, Denmark

### Deadline for manuscript submissions

closed (18 October 2023)

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
