Faunistic Studies on Natural Enemies and Pollinators in Agroecosystems

Message from the Guest Editors

Transforming agroecosystems with the help of sustainable agricultural practices can generate an array of positive effects: producing enough healthy food, improving biodiversity and soil health, and contributing to mitigating the effects of climate change. Numerous studies have been carried out on pollinators and natural enemies such as predators and parasitoids. However, more research is needed to shed light on the diversity and abundance of species that naturally occur in agricultural areas. The objective of this Special Issue is to collect and present faunistic studies that analyze the biodiversity patterns of pollinators and natural enemies, evaluating the space–time dynamics of their diversity and abundance, as well as the distribution of the different species detected. In addition, we aim to present research that assesses the effects of conservation-related activities on the valuation and protection of arthropod biodiversity at the species and community levels. Both new research and review articles are welcome in this Special Issue.

Guest Editors

Dr. Francisco Javier Peris-Felipo

Dr. Ehsan Rakhshani

Dr. Sergey A. Belokobylskij

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
